GREEN LEAF
POINT-OF-SALE

EXPERIENCE MATTERS

We work directly with CBD and cannabis laboratories, certification institutions, growers and dispensary owners to understand their business to help us continually improve our solutions.

We created a complete and industry compliant Point of Sale system that boasts a comprehensive suite of solutions to help you run your business with ease; from seed inventory and process tracking to all retail aspects of your business.

CORE FEATURES

These Features will help you manage all your sales and state compliance requirements.

TOTAL CONTROL

You decide what features you want to use. Make it as simple or complex as your business demands! Manage your account 24/7 in real-time; products, reports, customers and so much more with our Cloud Based Out-of-the-Box

EASE OF USE

Simple, easy to learn user interface. No extensive training or costs like other POS solutions. No software to install; just log in, setup your company info, add your products and start selling

COMPLIANCE FEATURES

We focus on compliance, given that violations can cause unnecessary repercussions and time consuming audits. While specific requirements can differ dramatically from state to state, a well-designed, cannabis specific, POS system gives owners the opportunity to easily stay compliant.

- Follow State Sales Regulations
- Real-Time Lab Certification Access
- Batch & Lot Tracking
- Advanced Reporting Functionality
- Customer information Management
- Customer Purchase History Reporting
- Sales & Product Tracking
- Industry-Leading Security & Encryption

INVENTORY ACCOUNTABILITY

Create, maintain and track your inventory quantities. Never run out of stock with item quantity alerts. Track your best sellers and find out which products make you money.

PREMIUM ADD-ONS & PLUGINS

Not every solution fits every business. That's why we've created additional features that can be added on to make sure your Point of Sale works the way your business needs it to.

UNIVERSAL FEATURES

HIGH PERFORMANCE

Whether it be Cloud Based or Locally Hosted, our specially engineered servers offer the fastest, most secure and reliable hardware available today.

RESPONSIVE DESIGN

Built to run on any platform; mobile, tablet or desktop. Use your own hardware or we can provide it for you at a minimal cost.

UNLIMITED REPORTS

Financial reports, product reports, sales reports, customer purchase reports and much more. Access the reporting data you want when you want it with ease.

MARKETABILITY

Full control of marketing directly to your customers. Setup targeted email and text campaigns based on customer's favorite products, last visit date, purchase history, birthdays and more.

CUSTOMER MANAGEMENT

Create customer profiles and keep track of Medical ID's and expirations, prescriptions, special preferences, purchase history, customer rewards points and more.

COMPATIBILITY

We designed GreenLeaf to be compatible with all desktop and mobile devices so you can always access your POS system.

CLOUD & LOCAL HOSTING

Cloud-based or locally-hosted? We offer both solutions so that you decide where your data is stored.

ONLINE SHOPPING CART

Create an online storefront for your business with our Shopping Cart Plugin. Sell your products online today!
